

Get the best interest rate on your home loan!

When considering buying something, you would always shop around for the best deal... So why not shop around for the best home loan?

Meet John.

John is currently applying for home finance via his own bank.

Based on his profile at his bank, he will probably get a typical finance deal at the current interest rate.

He won't have a comparative quote and therefore will not be able to compare whether his own bank gave him the best deal.

But

If John uses a **bond originator**, his application will be submitted to multiple banks, including his own. This will drive the banks to compete for the deal and put the best offer on the table.

So, how does this help John?

SAVE

He *SAVES* up to 0.5% on his interest rate

SAVE

Which means he *SAVES* up to R240 180 on his R3 million home loan over 20 years

SAVE

Resulting in a *SAVING* of up to R1 000 on his monthly instalment
